

<p><i>Submission to the United Nations Human Rights Council for the 2020 Universal Periodic Review of the United States of America in the Third Cycle with joint venture partner New Future Foundation.</i></p>	<p><i>Title: Solutions to 400 years of African American History (1619-2019): an African Diaspora Directorate Solution to Racism using the 2020 Universal Periodic Review of the USA</i></p>
<p>Friends of the African Union (FAU) is an economic, social, humanitarian, charitable, educational and new media civil-society organization founded in 2012 to improve the lives of the people of the African diaspora and to support the work of the African Union, the 55-nation African equivalent of the European Union. In the years immediately following its formation, FAU participated in United States government meetings with African Nations, African Union meetings and consultations, and United Nations forums and conferences. We recruited allies (including Native American and African tribal groups), built an affiliate structure with national country bureaus, state assemblies, and local chapters, and lined up resources. FAU and its allies are signatories to an established 5 year (2016-2020) \$30B bank-based Community Benefit Agreement. This submission through the African Diaspora Directorate and the FAU USA Bureau is a work created now after 400 years as a solution to the results of the fundamental injustice, cruelty, brutality, and inhumanity of African slavery in the USA for 76 years (1789-1865) and the 170 years (1619 - 1789) in the progenitors to the 13 English colonies that made up the new country in 1789, United States of America. It proposes a solution called #BlackFolksPlan using updated answers to the 2015 #UNUPR of the USA and tools such as the \$90B in Bank based Community Benefit Agreements and Opportunity Zones to meet the effects de jure & de facto of racial & economic discrimination on the descendant Americans of America's African history as detailed in the Civil Society Organizations Friends of the African Union Concept Note for the United Nations 24th Session of the Working Group of Experts on People of African Descent.</p> <p>Hershel Daniels Junior Phone: 01.513.858.5275 Friends of the African Union 5917 Cary Street, Ste 1, Cincinnati, Ohio 45224 Web: friendsoftheafricanunion.com Email: fauchairman@friendsoftheafricanunion.com</p>	<p>New Future Foundation is a non-governmental organization with UN ECOSOC status that was established in 1969 by Queen Mother Dr. Blakely as a multiethnic, multi-cultural not-for-profit organization. Successfully using cultural pride, individual initiative, and neighborhood leadership, especially among young people. New Future Foundation, Inc conducts global exchange students' programs with a focus on Africa, provides housing for students, ongoing public information, and education to solve problems of racism, poverty and ignorance. New Future Foundation was founded with Congresswoman Shirley Chisholm as Honorary Chairwoman. Dr. Delois Blakely was a Community Fellow {1981-82} at the Massachusetts Institute of Technology {MIT}, an Education Policy Fellow {1982-83} of the International Education Leadership {IEL}, a Fulbright Scholar in Tanzania and Nigeria {1984-85} sponsored by the Massachusetts Institute of Technology along with Harvard and Columbia University. Queen Mother (Ashanti) Dr. Blakely received two Masters of Education Degrees, one from Harvard University {1982} and the other from Teachers College, Columbia University {1983} and a Doctorate of Education Degree from Teachers College {1990}. She graduated from the Franciscan Handmaids of Mary College in 1965 with a Bachelor of Science Degree in Religious Studies and was allowed to study the United Nations starting in 1968. From 1969 she studied under Dr. Angie Elizabeth Brooks who was the second woman {1970} President of the UN General Assembly. Later, as a Fulbright Scholar she studied the governance system of Mwalimu Julius Nyerere and Nigeria.</p> <p>Dr Delois Blakely Phone.01.212.368.3739 New Future Foundation 477 W142 Ste. 2 New York, NY 10031 Email: newfuturephotos@gmail.com</p>

Title of UN 2020 Universal Periodic Review of the USA by the Friends of the African Union the New Future Foundation and the African Diaspora Directorate

- 1 Solutions to 400 years of African American History (1619-2019): an African Diaspora Directorate Solution to Racism using the 2020 Universal Periodic Review of the USA.

Background

- 2 Friends of the African Union (FAU), which is an Ohio non-reporting unincorporated association (2012), has combined operations with the Cincinnati Empowerment Corporation, Inc. (1999) which together will do business as FAU Global Operations Center (2018) and with FAU's affiliated public beneficiary company for the People of African Descent in the African Diaspora FAU EDcorp, Inc. (2016) who accepts the definition by the African Union in 2005 as "The African Diaspora consists of peoples of African origin living outside the continent, irrespective of their citizenship and nationality and who are willing to contribute to the development of the continent and building of the African Union.", Friends of the African Union smartWISE (2018), and FAU PBFS (2019) are together proposing creating a domestic next-generation innovation team for sustainable change in human rights in the United States of America based on our work in the United Nations and the African Union (AU).

Furthermore, in the AU definition, the diaspora as having the following characteristics: (1) Bloodline and/ or heritage: The Diaspora should consist of people living outside the continent whose ancestral roots or heritage are in Africa; (2) Migration: The Diaspora should be composed of people of African heritage, who migrated from or are living outside the continent. In this context, three trends of migration were identified- pre-slave trade, slave trade, and post-slave trade or modern migration; and, (3) the principle of inclusiveness.

The definition must embrace both ancient and modern Diaspora; and The commitment to the African cause: The Diaspora should be people who are willing to be part of the continent (or the African family) We will work through:

(1) The Economic, Social and Cultural Council (AU/ECOSOCC) is an advisory body of the AU designed to give civil society organizations a voice within the AU institutions and decision-making processes. ECOSOCC is composed of civil society organisations (CSOs) from a wide range of sectors including labour, business and professional groups, service providers and policy think tanks, both from within Africa and the African diaspora. AU/ECOSOCC derives its authority from the Constitutive Act of the AU with the Highest decision-making body of AU/ECOSOCC has been sworn in December 2019 as the Third General Assembly. It is our intention to work through it with all in the African Diaspora.

(2) The Citizens & Diaspora Directorate (CIDO) is the department responsible for leading the AU's engagement with the Diaspora through the AU Mission Offices and civil society through the work of the AU/ ECOSOCC. It derives its authority from the African Union Commission who like AU/ECOSOCC derives its authority from the Constitutive Act of the AU.

Friends of the African Union United Nations work includes the following

- 3 Friends of the African Union (FAU) is proposing creating a domestic next-generation innovation team for sustainable change in human rights in the United States of America based on not only FAU's work in the United Nations but of other CSO's. Our work includes:
- 4 Consultation with the African Diaspora on the African Union (AU) Agenda 2063 October 8-10, 2013 at the AU Mission to the United Nations at the call the African Union Commission hosted by the Office of the Permanent Observer of the African Union to the United Nations
- 5 JS51_UPR22_USA_E_Main - New Future Foundation and Friends of the African Union Joint Venture during the Second Cycle United Nations Universal Periodic Review of the United States of America in 2015 on September 14th, 2014. The theme of our joint venture FAU/NFF Universal Periodic Review program was based on "Money for Main Street, not just Wall Street." In this plan we accepted development of a \$3T USD plan for Africa.
- 6 A Joint Civil Society Submission and Public Release of Joint Venture work at the United Nations Permanent Forum on Indigenous Issues Fifteenth Session. This was held at UN Headquarters under the Special Theme: "Indigenous peoples: conflict, peace and resolution". We held a session May 20th, 2016 entitled "Native Americans and African Americans" co-sponsored by Caddo Assets Services Help Community Development and New Future Foundation in the United Nations HQ NYC in Conference Room 8.
- 7 JS17_upr31_nga_e_main - The Cincinnati Empowerment Zone doing business as Friends of The African Union Global Solutions Centre whose work for the benefit of the people of the African Union (hereinafter "AU") and the African diaspora in their host countries, such as Nigeria, through its Bureau Structure, submitted with the Nigeria Civil Society organization West Pride of Nigeria, as an extension of that answer based on the over adult Nigerian citizens who are external migrants and living in the USA illegally. Furthermore, they are part of the people in the USA of Nigerian heritage who have experienced "Civil Rights, Ethnic, and Racial Discrimination" in the USA as described in the US Governments response to the UNUPR of the USA in 2015. FAU has a Bureau for each country made up of those citizens.
- 8 JS22_UPR31_MEX_E_Main - Review on 07 November 2018 Third Cycle of the Universal Periodic Review of Mexico when we proposed a digital currency around the over \$69 billion dollars people of Mexican Heritage in the USA send back to Mexico each year
- 9 Friends of the African Union submitted a report on the African Week 2017 held at the United Nations HQ NY that was sponsored by the Office of the Special Adviser on Africa (OSAA) who supports the work of African civil society organizations and with its strategic partners, in attendance, including Member States, the Economic Commission for Africa (ECA), the UN Department of Public Information, the African Union, the NEPAD Agency, the African Peer Review Mechanism (APRM) Secretariat, and the African Regional Economic Communities (RECs).

The Africa Week (16 - 20 October 2017) Theme for 2017 was: "Supporting an Integrated, Prosperous, People-centred, Peaceful Africa: Towards the Implementation of Agenda 2063 and the 2030 Agenda for Sustainable Development". FAU Chairman Hershel Daniels Junior was part of a Joint Delegation lead by New Future Foundation Chairwoman, Queen Mother Dr. Delois Blakely and sent to the OSAA, NEPAD and AU a follow-up report.

From the to be published book "The CSW63 Friends of the African Union Women's Manual", on page 58 we the delegation was, "HONORED to witness New Future Foundation was

recognized by the Chairman of Africa Week 2017 on Oct 16th 2017 as representing at this historic event as the African Civil Society representative. New Future Foundation led a delegation that included FAU, FAU EDcorp, FAU USA, Cincinnati Empowerment Corporation/FAU Global Operations Center, Congress of Black Native Americans, Infinity Building Economics/Black Political Action Committee, the FAU Mighty Forefront, Black Methodist for Church Renewal Chapter of Keys of the Kingdom, a United Methodist Church, and CASH Community Development to this meeting. The delegation was led by Queen Mother Dr. Delois Blakely who carries the legacy of Queen Mother Audley Moore representing African Descendents of the TransAtlantic Ocean of the Middle Passage and is an Ashanti Queen Mother.”

- 10 From our beginning 400 years ago on August 25th, 1619 at Old Point Comfort as Africans and then as African Americans (1868) we have played a vital role in the building of the USA and now it is time we rebuild our global community, first in the USA, then in unity with the African Diaspora and then by 2021 in the Nations of the current African Union.

FAU recognizes that becoming Americans did not create economic opportunity, rather the laws and policy decisions passed by local, state, and federal governments actually promoted the discriminatory patterns that continue to this year in the practice of institutionalized racism on Americans of African Descent. The #BlackFolksPlan is to be a solution based on our work presented to the Working Group of Experts on People of African Descent in 2017 based on their 2016 Investigation of the United States. We provided in our report solutions to the practice of institutionalized racism in government and business on the descendant Americans of African heritage from 1868 through today and as important solutions through Community Benefit Agreements to the effects subsequently de jure & de facto of that racial & economic discrimination.

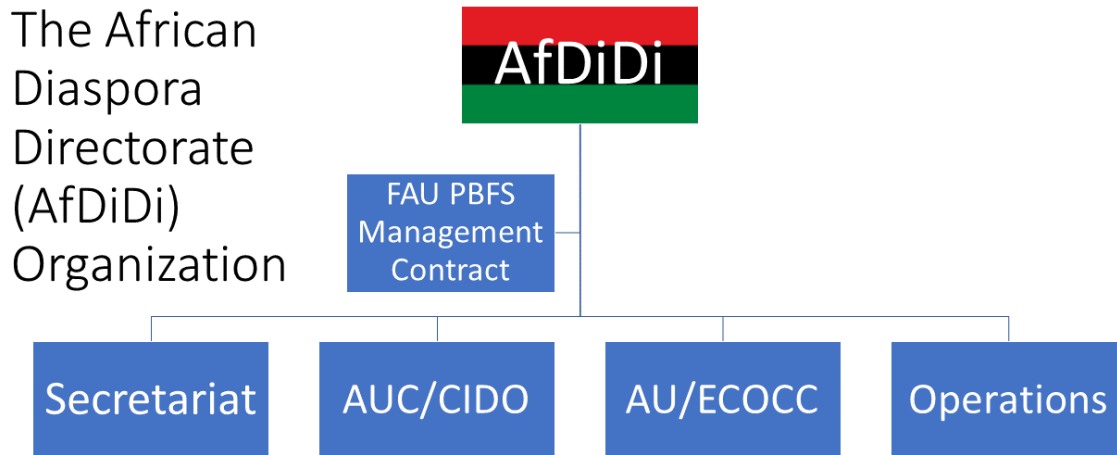

We did so still believing that Obama Administration executive action on a \$5T USD Quantitative Easing debt purchasing program called the #BlackFolksPlan that used The Daniels IDIQ (under license) would be a solution for the fundamental injustice, cruelty, brutality, and inhumanity of 76 years African slavery in the USA and its effects subsequently de jure and de facto of racial and economic discrimination on the descendant Americans of African heritage. In 2016, after spending two years in negotiating the terms of implementation of our solutions to the 2015 UPR of the USA, the US Government, by their inaction, said no.

Based on that work on December 25th, 2018, FAU began to offer global programming in seven focus areas: (1) developing intergenerational community wealth with a focus on veterans; (2) business development that erases the digital divide and builds wealth for economically disadvantaged people; (3) next-generation civic infrastructure with governance at the neighborhood level; (4) comprehensive Internet of Everything based education; (5) healthcare system solutions that effectively serve the entire population; (6) combating racism through economic development; and (7) human rights development using the UN's Universal Periodic Review process with each country through that countries FAU Bureau.

Now in 2019, we are creating a next-generation innovation team for sustainable change that supports these seven global programming focus areas and is focused on Ohio as the first state of over 30 states to be targeted through 2021. It is called the African Diaspora Directorate and it was first called for when we addressed the question in the United Nations

Concept Note 24th Session of the Working Group of Experts on People of African Descent of 25-29 March 2019 in its Request for data-guidance note.

Friends of the African Union et. al., Sons and Daughters of Africa (SADA), The Universal Negro Improvement Association and African Communities League (UNIA/ACL), the African American Agriculturalist Association, and the Black Wall Street Cooperative who together are founders of the African Diaspora Directorate and support the work of the African Diaspora and the African Union through the African Diaspora Directorate who has four divisions:

The founders support the work of the African Diaspora and the African Union through the African Diaspora Directorate who has four divisions: (1) A Secretariat established in the USA on August 25th, 2019, (2) a Civil Society Division to work with the African Union's (AU) Citizens and Diaspora Directorate (CIDO) to implement the AU CIDO's engagement process with non-state actors through the involvement of the African Diaspora's Civil Society, (3) a Diaspora Division will organize in the global African Diaspora at national, regional and or state geographic and or Tribal level the people of African Descent which is composed of Civil Society Organizations (CSOs) in line with statutes of the AU's Economic, Social and Cultural Council, and (4) a Operations Division who will create and operate the partnerships and businesses called for by the African Diaspora Directorate Secretariat.

In this case, an African Diaspora Directorate Task Force created to provide a solution to the historic treatment of Americans of African Descent in the African Diaspora in the USA of an Updated Anti-Racism Solution called the #BlackFolksPlan.

Summary

- 11 With the US Federal Government passage of the 400 Year African American Commission Act which became Public Law No: 115-102 January 8th, 2018 we use that as the official start of the history of Africans in what became the United States of America (USA) on March 4th, 1789. In it, the US Government has recognized, for the first time, as when the start of Africans in the British Colonies that became the USA, August 25th, 1619 at British Colony at Old Point Comfort i.e.in the present-day state of Virginia. We celebrated that day in 2019.
- 12 In 2014 the theme of our joint venture FAU New Future Foundation 2015 Universal Periodic Review of the USA was based on "Money for Main Street, not just Wall Street. Now our updated capital solution will address human rights solutions to 400 years of injustice. We have updated the #BlackFolksPlan under relevant international human rights instruments, in particular, the United Nations International Convention on the Elimination of All Forms of Racial Discrimination. We do so bearing in mind that the USA, a founding member of the United Nations (UN) and the Universal Declaration of Human Rights, who practiced from its

formation, in its constitution of 1788, human slavery for 76 years as a nation and carried out systematic and institutionalized racism to its own citizens.

- 13 Now, Friends of the African Union is in the process, with allies, such as Sons and Daughters of Africa, UNIA/ACL, African American Agriculturalist Association, Black Wall Street Cooperative, and Keys of the Kingdom UMC Chapter of Black Methodists For Church Renewal, of updating its 2014 UN authorized joint venture with New Future Foundation, a Civil Society Organization, in UN ECOSOCC Consultative status since 2008, present this document as a submission through a task force of the African Diaspora Directorate in the creation of solutions at the national, state and local governmental level for the (1) fundamental injustice, cruelty, brutality, and inhumanity of African slavery in the United States of America (USA) between 1789 & 1865 and (2) progenitors to the 13 American colonies between 1619 & 1789 and (3) its effects subsequently de jure & de facto of racial & economic discrimination on the descendant Americans of America's African slavery. It will also address the damage incurred by past & current federal government racism against freed Africans families in the USA from 1863 to 1868 & African Americans from the collective unasked-for American citizenship as no one asked us as a people of 1868 to the current year of 2019. From this year forward we will work with African nations on the right of return.

Implementation Actions Steps

- 14 Friends of the African Union and allies believes that this could be the time that by executive action by the President of the United States of America in a public-private partnership can be created through the United States Department of State of a Quantitative Easing based debt purchasing program through an unsolicited proposal to the US State Department under 48 Code of Federal Regulations Subpart 15.6 - Unsolicited Proposals, which are “ Unsolicited proposals allow unique and innovative ideas or approaches that have been developed outside the Government to be made available to Government agencies for use in accomplishment of their missions. Unsolicited proposals are offered with the intent that the Government will enter into a contract with the offeror for research and development or other efforts supporting the Government mission, and often represent a substantial investment of time and effort by the offeror.”

The Proposed Unsolicited Proposal to US State Dept will be titled: A Global African American Stimulus Program is an African Diaspora Directorate Anti-Racism Solution called the #BlackFolksPlan

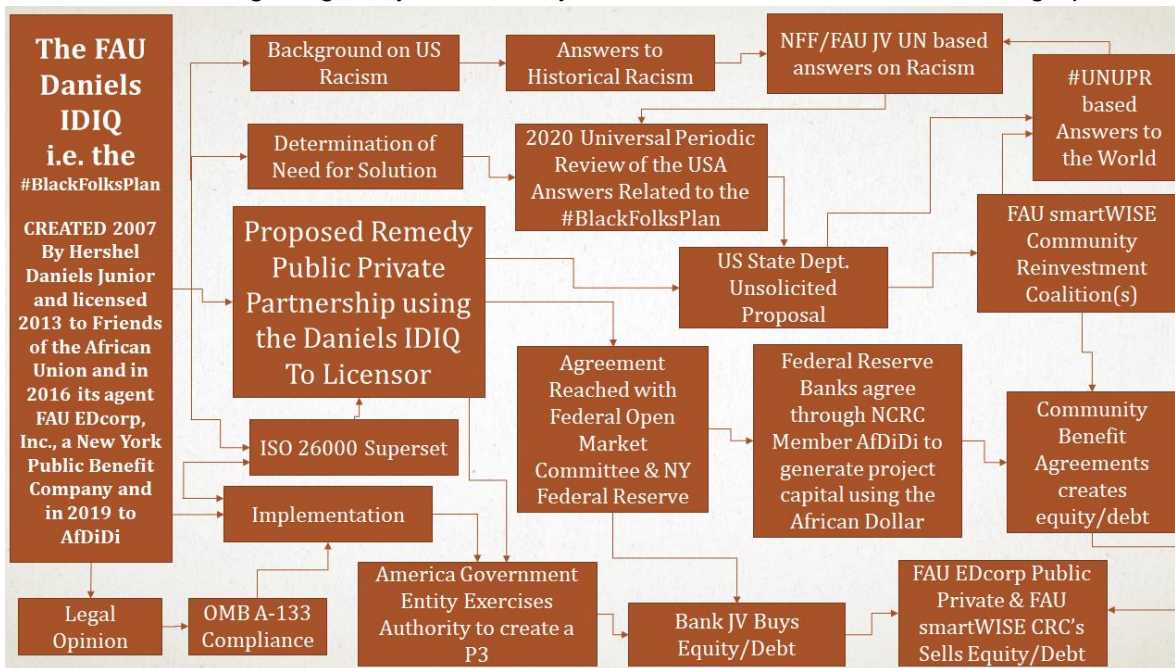

- 15 It will be offered by The African Diaspora Directorate in the name of its founders and those who are signatures to the proposed charter of The African Diaspora Directorate Secretariat who will create a Task Force to develop the #BlackFolksPlan.

Proposed Summary of the Unsolicited Proposal

- 16 The African Diaspora Directorate & its co-founders, members and affiliates believes that public-private partnership debt purchasing program (The Daniels IDIQ) can be a solution for the fundamental injustice, cruelty, brutality, and inhumanity of African slavery in the United States of America (USA) between 1789 & 1865 and progenitors to the 13 American colonies

between 1619 & 1789 & its effects subsequently de jure & de facto of racial & economic discrimination on the descendant Americans of America's African slavery. It will address the damage incurred by past & current federal government racism against freed Africans in the USA from 1863 to 1868 & African Americans from 1868 to 2019.

It will be a stimulus to the American Economy that is judicious, good for all of the USA and addresses solutions to the statements in the interagency response set forth by the US State Department to the Universal Periodic Review of the USA in 2015 that said "Civil Rights, Ethnic, & Racial Discrimination" is the number one human rights problem in the USA. It draws on already established government authority and market infrastructure. It is just adequate to implement real changes that reverse long-standing conditions, as documented in depth elsewhere, for the People of African Descent in the USA. There is proprietary data to be used including a digital cyber currency called the African Dollar. Here is a graphic of it.

Authority to do so

17 In 2015 we were not signed to a bank-based Community Benefit Agreement ("CBA") for \$30.1B, now we are. Under this amended agreement of \$32.1B there has been over \$24B in investment and philanthropic activity by the bank. It can serve as a model for a new generation of Community Benefit Agreements that we can pursue under US law.

We do so based on our response in 2014 as a UN Authorized Civil Society Joint venture with New Future Foundation, (UN Documents JS51_UPR22_USA_E_Main) that was directed to one of the ten areas to be commented on as subject headings detailed by the US State Dept. in response to the 2015 UPR - (1) civil rights, ethnic, and racial discrimination; (2) criminal justice issues; (3) indigenous issues; (4) national security; (5) immigration; (6) labor and trafficking; (7) economic, social and cultural rights and measures; (8) the environment; (9) domestic implementation of human rights, and; (10) treaties and international human rights mechanisms.

Over the coming year we will detail how the #Black Folks Plan addresses these issues in a national Community Benefit Agreement that is good for People of African Descent in the African Diaspora in the United States of America and for the county as a whole. We will do so by addressing each month detailed solutions around each of these ten areas in reverse order.

FAU smartWISE would be an intellectual property developer of the Stephen R. Singer's Singer Business Process and professional services enterprise that would blend skills in global commerce, operations, engineering and technology of the principals of Singer Environmental and the combined skills and experience of FAU Global Operations Center, FAU EDcorp, and African Unity Solutions to be molded into the FAU smartWISE Community Reinvestment Coalition Model. Listed below is the \$5T USD use of proceeds.

Proposed use of proceeds the above Unsolicited Proposal

- 18 Enclosed, below in Paragraphs 19-28, is the Eleventh draft (9/30/2019) of a proposed use of proceeds the above Unsolicited Proposal contained herein is called the #BlackFolksPlan. It is an updated solution based on response to the statements the US State Department-led interagency response to the 2015 United Nations Universal Periodic Review of the USA (#UNUPR) that said "Civil Rights, Ethnic, & Racial Discrimination" is the number one USA human rights problem. The first draft went to State in 2015 and we talked with them to 2016.
- 19 The \$2.7T FAU smartWISE Community Reinvestment Coalition Housing Program is a \$2T #FAUchamber CRC Anchor Organization program that takes lead out of 7 million of America's housing stock including public housing & has a \$700B worker training component with a focus on the 3.75M unemployed African Americans, many of whom are drawn from the HUD Section 3 program. We are identifying 1,000 companies who can meet our requirements. The proposed private-public partnership federal government coordinator is to be Housing & Urban Development.
- 20 The \$120B FAU FAU smartWISE Community Reinvestment Coalition New American Rites of Passage Program is based on addressing the needs of African Americans who as citizens of America have a high degree of desperation and hopelessness along with the belief that things can't change – they can and this program will provide the solutions with a focus on sports and recreation. We are identifying 400 companies who can meet our requirements. The proposed private-public partnership federal government coordinator is to be the White House Office of Public Liaison & Intergovernmental Affairs.
- 21 The FAU FAU smartWISE Community Reinvestment Coalition EDcorp Program invests \$100B so as to give African American parents the right to send their kid to the schools of their choice & creates 300 #FAUchamber CRC Anchor Coalitions for Educational Choice. We are identifying 400 companies who can meet our requirements. The proposed private-public partnership federal government coordinator is to be the Department of Education.
- 22 The FAU smartWISE Community Reinvestment Coalition Erase the Digital Divide Program will invest \$80B to address the Internet access inequities in the lives of African Americans with a focus on rural schools and libraries delivering the bandwidth required for 21st Century learning to all of Americas poor no matter where they are, through the companies of the

Small Business Administration. We are identifying 400 companies who can meet our requirements. The proposed private-public partnership federal government coordinator is to be the White House Office of Science and Technology Policy.

- 23 The FAU smartWISE Community Reinvestment Coalition African American Business Program will invest \$300B in African American businesses that support the strengthening of America's exporting to African nations & 250M people of the African diaspora worldwide and \$50B to current and future African American farmers including Urban African American farmer. We will directly ask the US Department of Agriculture to start the program out.

We do this work in agriculture because African American Farmers have lost, from our citizenship in 1868 over the course of the 20th century, approximately 12 million acres of land. This mass land dispossession story according to Atlantic writer Vann R. Newkirk II in a new documentary was, "—a war waged by deed of title, which has affected 98 percent of black farmers—can only be called theft. This program will address that theft, support for the little offer 22,000 African American Farmers left and the future of African American farming, domestic and foreign farms. We are identifying 50,000 companies that can meet our requirements including the aforementioned African American farmers. The proposed private-public partnership federal government coordinator is to be the Small Business Administration

- 24 The FAU smartWISE Community Reinvestment Coalition African American Health Care Affordable Rate Program will invest \$200B through the private sector partners in a national health coalition with over 300 chapters for 40 million-plus Americans. We are identifying 4,000 companies and civil society organizational partners who can meet our requirements in creating a health care co-operative that can care for the People of African Union in the African Diaspora in the USA. The proposed private-public partnership federal government coordinator is to be US Health & Human Service Department.

- 25 The \$300B FAU smartWISE Community Reinvestment Coalition Transportation Program will address urban & rural inter-modal transit needs along with bridges and smart highways community drawn from an African American Low-Moderate Income (LMI) Workforce. We are identifying 400 companies and civil society organizational partners who can meet our requirements. The proposed private-public partnership federal government coordinator is to be the Department of Transportation

- 26 The FAU smartWISE Community Reinvestment Coalition Environmental Program believes that as we invest \$300B into public-private partnerships like those in all 50 states that fixes sewers, water and air quality for all Americans, rural as well as urban starting with Fort Coffee Oklahoma, as we improve American Export sales to Africa, the America's and Asia based on our model in Ohio and \$145B to be spent to remove lead and other dangers from American soil and housing with a focus on LMI communities; which will help create a new American citizen workforce, lead free. We are identifying 4,000 companies and civil society organizational partners who can meet our requirements. The proposed private-public partnership federal government coordinator is to be the Environmental Protection Agency

- 27 The \$350B FAU smartWISE Community Reinvestment Coalition Infrastructure Program will invest \$100B to address the federal government management of leases for coal mining while applying \$200B in bio-safe level IV developments and/or alternatives approved by the Army

Core of Engineers & our national laboratories for those coal plants that are left and or for Urban Green Solutions involving our Sewer Systems with Ohio being a test case along with investing \$50B in creating a global power system with a consortium of 10,000 electrical African American contracting companies, strategic industry and civil society organizational partners acting together that will sell power worldwide to the Americas, Asia, and a special focus on Africa as a long term market for the USA.

The Bureau of Land Management of the Department of Interior manages over 245 million acres of Federal lands, located mostly in the western States, for multiple uses, including grazing, timber, recreation, and energy and mineral development. Given its regional approach to planning, the proposed infrastructure program would support African American Farmers through its 50 state Community Reinvestment Coalitions and over 300 local CRC's that support local communities' interests and enhance their input in BLM planning decisions. This is a \$40B program over the next 100 years with \$30B going to over 300 local CRC's to hire the staff needed to support their concerns. In addition, we are identifying 35,000 companies who can meet our requirements. The proposed private-public partnership federal government coordinator is to be the Department of the Interior.

- 28 The FAU smartWISE Community Reinvestment Coalition P3 Logistics Program is carried out under a FAU proposal in development as an Employee Stock Ownership Plan (ESOP) to be a P3 with the United States Postal Service (USPS) that supports the continuation of services to neighborhoods in light of national security needs through the U.S. Postal Service is not a federal agency but a government-owned corporation. This is in support of foreign Aid in Africa that will meet the needs of the African Famine and that meets the USPS pension needs that draws from an investment of \$455B that will support these investments and employing over a million Americans in manufacturing next-generation American made cars, buses, trains and airliners. We are identifying 4,000 companies and civil society organizational partners who can meet our requirements. The proposed private-public partnership federal government coordinator is to be the Department of Commerce.
- 29 In addition, we will hold weekly conference calls that will encourage civic participation by fellow members of the US Human Rights Network along with other human rights organizations, civil society organizations that will with civil rights, patriotic, historical, educational, artistic, religious, anti-racism, and economic justice organizations to organize and take part in the creation of a trust called the #BlackFolksPlan is to be the public partner in the Unsolicited Proposal.
- 30 We will, through the African Diaspora Directorate, hold a six-day national conference in person, online and in conference calls every year from December 26th through December 31st, starting in 2019, that will review the actions in the creation of the #BlackFolksPlan and make any such changes as a proposal to the White House Office of American Innovation as a solution to America's historical racism (1619-2019) in regards to People of African Descent in the African Diaspora in the United States of America.
- 31 At the state level, we will create solutions for people of African Descent based on the model created on the sidelines as part of our participation in the National Community Reinvestment Coalition Reinvest Ohio Summit, September 23rd, 2019. The Summit brought together community leaders, health care leaders, advocacy groups and public officials to discover

ways to reinvest in communities across Ohio. We discussed strategies to combat disinvestment and displacement and to increase access to affordable housing and credit using tools like the Community Reinvestment Act. Financial institutions with over \$50B USD in established bank based Community Benefit Agreements (CBA) discussed how they worked and the next steps in their use.

- 32 It is our intention to hold over the next 4 years at least 30 such statewide Summit per year expanded from the current one day to three days, with a day focused on People of African Descent in the USA with statewide solutions to institutional racism using CBA's and public private partnerships as tools. The 2020 states include Alaska, Alabama, Californias, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Washington, West Virginia along with Washington, D.C and Puerto Rico.
- 33 At the local level, we will replicate our actions in Hamilton County, Ohio where we submitted the county for review, as ground zero for the status of people of African descent and what changes we can make in their status going forward. We did this in Friends of the African Union Concept Note for the 24th Session of The Working Group of Experts on People of African Descent which took place 25-29 March 2019 in Geneva at UNHRC HQ. that created the concept of an overarching organization for People of African Descent in the African Diaspora called the African Diaspora Directorate. This work has 4 sections:
 - 34 A. Community Benefit Agreements that are built on a superset of ISO 26000 called the Daniels IDIQ and use a digital currency solution acceptable to the marketplace.
 - 35 B. Comprehensive Economic Development Strategies that include erasing systematic and institutionalized racism in County Government at all levels to mirror the like pledge we received from the Hamilton County Commissioners for this past Juneteenth
 - 36 C. Chapters of the Son and Daughters of Africa who targets African national citizens in the USA with partner FAU Country Bureaus to create participation in person and via social media or streaming in FAU smartWISE Community Reinvestment Coalitions.
 - 37 D. Chapters of the Friends of the African Union who are members of the US Human Rights Network, the UN Association of the United States and the National Community Reinvestment Coalition that together, at a county level, create regional coalitions called FAU smartWISE Community Reinvestment Coalitions who target 20 population groups. Of these 20 groups, the base is People of African Descent through the #BlackFolksPlan. To do this we will create "human rights community benefit anchors". We will create in these FAU Chapters Human Rights Anchor, anchors in community development is a term typically applied to universities and hospitals, but municipal governments, community foundations, corporations, sports teams, and arts and cultural organizations can also behave as urban economic anchors -in our case we focus on human rights community benefit anchors aligned with the National and or State #BlackFolksPlan that includes human rights advocates and grassroots citizen participation through secure digital participation and voting solutions enabled by FAU's African Unity Solution. We launch our first Human Rights Anchor Oct. 19th, 2019 in Hamilton County, Ohio with Keys of the Kingdom UMC Chapter of the Black Methodists for Church Renewal.
